Welcome to the Thames River Anglers Association

In the spring of 1986 the TRAA was formed by anglers concerned with the state of the fishery in the Thames River watershed, particularly the dwindling smallmouth bass population in the North Thames River.

The TRAA is not a fishing club, although most members are anglers and share fishing as a common interest. We are a "hands on" environmental group who likes to work at a grass roots level.

[LEARN MORE](#)

Projects

"Hands-on Environmentalism" is what we do ... This is what sets the TRAA apart from other clubs and organizations. You'll find us right in the water clearing obstructions from streams, measuring returning salmonids & taking scale samples for DNA analysis, education through trout hatchery tours & stream walks, being a voice for the Thames River watershed & its inhabitants and the list goes on.

Trout Hatchery

The TRAA trout hatchery is a popular activity of the TRAA as it's a great teaching tool with regard to the life cycle of a trout. Those involved with the hatchery get to see firsthand the development stages of the egg and the fry before their final release destinations to area streams.

[LEARN MORE](#)

Rod Building

This will be a series of informal, hands-on sessions that will result in a spinning or fly rod that you have assembled and finished yourself. Registration will be closed when 15 paid-up participants have registered, or January 11, 2019, whichever comes first.

[LEARN MORE](#)

Funding

Efforts are underway to get the funding we need to continue many of the TRAA's most vital projects:

[DONATE](#)

Shop

TRAA Gear is now available!

Many of you have already ordered the TRAA tee shirts, but if you haven't you had better hurry because many sizes are almost sold out! These are a steal at \$15 each.

There are three different hat colours available: Clay Grey, Burnt Orange and Taupe. If you thought the tee's were a good deal, all three editions of these hats are also priced at \$15 each.

We now have some nice stickers featuring the TRA logo that you can display on your vehicle, boat, lunchbox or wherever you like. These are \$2 each but you get one for joining the TRAA as a member or renewing an existing TRAA membership.

Get your TRAA Gear (makes a great Christmas gift!) at any TRAA event, such as this coming General Meeting.

About to the Thames River Anglers Association

In the spring of 1986 the TRAA was formed by anglers concerned with the state of the fishery in the Thames River watershed, particularly the dwindling smallmouth bass population in the North Thames River.

The TRAA is not a fishing club, although most members are anglers and share fishing as a common interest. We are a "hands on" environmental group who likes to work at a grass roots level.

The TRAA is a volunteer organization, governed by a formal constitution and by-laws. An elected Executive, with the guidance of the General Membership, sets the policies and direction for the TRAA.

The TRAA has a history of always having a core group of active members supported by those who just want to be part of the solution. Either way, every member of the TRAA is active in their advocacy for the health of the Thames River watershed and its inhabitants.

The TRAA Works at a Grassroots Level Within the Thames River Watershed to:

- protect, enhance and regenerate a viable, multi-species, year-round fishery.
- promote and participate in environmental clean-up, pollution control and rehabilitation.
- breed, relocate and stock to re-establish or augment appropriate species of fish.
- promote environmentally sound sport fishing practices.
- form partnerships with community businesses, government agencies, special interest groups, landowners, and other stakeholders in the Thames River watershed.
- increase public awareness of the unique diversity of the Thames River Watershed, its challenges, its recreational opportunities and its vital importance to our community.

Salmonid Monitoring Program

Here's an overview of what happened over a few weekends in the Spring of 2012 when TRAA members and personnel from the Upper Thames River Conservation Authority (UTRCA) waded in for Year 3 of our 5-year Salmonid Tagging and Monitoring Program. Jon George, an MNR biologist from Thunder Bay who is helping us out with this project, compiled the comparative results of 2010 (Year 1) and 2011 (Year 2) and 2012 (Year 3) in an easy-to-understand report. Click [Here](#) to have a look; it's quite interesting.

[Click Here for pictures and descriptions from Year 2 \(2011\).](#)

We'll be doing it all over again during the spring of 2013 for Year 4.

"Hands-on Environmentalism" is what we do ...

This is what sets the TRAA apart from other clubs and organizations. You'll find us right in the water clearing obstructions from streams, measuring returning salmonids & taking scale samples for DNA analysis, education through trout hatchery tours & stream walks, being a voice for the Thames River watershed & its inhabitants and the list goes on.

Salmonid Monitoring Program

Spring 2013 will be our fourth year of this 5-year project.

Here's an overview of what happened over a few weekends in the Spring of 2012 when TRAA members and personnel from the Upper Thames River Conservation Authority (UTRCA) waded in for Year 3 of our 5-year Salmonid Tagging and Monitoring Program.

[READ MORE](#)

TRAATrout Hatchery

Rearing both brown and rainbow trout.

The TRAA first began rearing rainbow trout in an outdoor upwelling incubation box back in 1986. Since then we've successfully taken on both brown trout and brook trout eggs
